FLEXFORM

OUTDOORS,
IN THE NATURAL PROGRESSION
OF SPACE, LIFE TAKES ON
A LIGHTNESS, WEAVING ITSELF
INTO THE LANDSCAPE
IN ALIGNMENT WITH ITS RHYTHMS.

THE DESIGN OPENS TO THE SURROUNDING LANDSCAPE. THE OUTDOORS ACCORDING TO FLEXFORM.

Flexform Outdoor nasce da un'idea progettuale precisa: estendere all'esterno la stessa idea di comfort, eleganza e sobrietà che da sempre definisce l'abitare secondo il marchio.
Non si tratta semplicemente di portare gli arredi all'aperto, ma di dare continuità a uno stile di vita, a un'estetica misurata che si apre al paesaggio con naturalezza. Interno ed esterno dialogano in perfetta sintonia, in un equilibrio fatto di proporzioni, luce e materia. Una presenza discreta, che si integra nel contesto con armonia, senza mai imporsi.
La collezione interpreta un lifestyle consapevole, in cui l'eleganza si esprime attraverso la coerenza formale, l'originalità delle finiture, l'attenzione al dettaglio. Un linguaggio visivo pacato, riconoscibile, profondamente contemporaneo.
La proposta comprende sedute, tavoli e complementi pensati per conservare nel tempo il loro valore formale e funzionale. I materiali - alluminio, iroko, pietra Lavica, acciaio inox, tessuti tecnici - in grado di resistere agli agenti atmosferici, sono selezionati con cura sartoriale. Ogni scelta riflette una continua ricerca di sintesi tra prestazione tecnica e raffinatezza estetica.
Linee pure, geometrie essenziali, finiture materiche: ogni elemento invita a rallentare, a riscoprire il tempo all'aria aperta come esperienza autentica e rigenerante. Non un semplice arredo, ma un modo di vivere lo spazio che pone al centro la relazione tra forma, luce e natura. In giardino, a bordo piscina o su una terrazza urbana, gli arredi Flexform Outdoor disegnano scenari di quiete e armonia, dove il progetto incontra la vita quotidiana. Per riscoprire, anche all'aperto, la sensazione autentica di sentirsi a casa.

Flexform Outdoor grew out of a clear design vision aimed at extending the brand's signature concept – dwelling in comfort, elegance, and understatement – to the outdoors. It is not simply a question of taking the furniture outdoors, but of bringing continuity to a lifestyle and to an understated aesthetic that opens up naturally to the landscape. The interplay between indoors and out unfolds in perfect harmony – a balance shaped by proportions, light and material nuances. A discreet presence that blends seamlessly into the setting, without ever becoming overbearing.
The collection interprets a lifestyle of thoughtful simplicity, in which elegance is expressed through a unified design aesthetic, originality of finishes, and attention to detail. A serene, recognizable and absolutely contemporary visual language.
The collection includes seating, tables and accessories engineered to maintain their form and functional value over time. The weather-resistant materials – aluminum, iroko wood, lava stone, stainless steel and technical fabrics – are selected with the utmost attention to detail. Each choice reflects the company's constant research into the ideal synthesis of technical performance and aesthetic refinement. Pure lines, minimalist geometries and textured finishes – each piece is an invitation to slow down and rediscover time outdoors as an authentic, revitalizing experience. Not just furniture, but a way of inhabiting space centered on the relationship between form, light and nature. In the garden, poolside or on an urban terrace, Flexform Outdoor furnishings breathe vitality into quiet settings filled with harmony where design meets everyday life. A rediscovery, even in the outdoors, of an authentic at-home feeling.
