OUR COMPANY

We are a global design brand that envisions products for the ways we live.

Founded in 1989 in Monastier di Treviso, Italy, Arper has grown into an international voice in design. We are family owned and independently run, guided by strong values and deep sensitivity to those who use our products everyday.

Life is a constant conversation with the environment around us. As the boundaries of our world melt away, work and home become one, and we are compelled to act with agency, we are all presented with the same question: how do we want to live? This project of living inspires our work and our vision.

WHAT MAKE THE PROJECT OF LIVING?

How do we want to live now? More responsibly. More expressively. More connected. The world is in constant change, and the solution we might need today might not be what we need tomorrow. To respond and adapt, Arper creates the strategies for a world in flux — shaping spaces and solutions, forwarding sustainable practices, pursuing new product innovations, and cultivating culture and ideas with thoughtful, life-centered design. We're thinking holistically: strategies instead of products, spaces instead of collections, the planet instead of human interest alone. Together, in dialogue with our clients and partners, we design the world we want to live in. This is what makes the project of living.

ARPER FOR OFFICE

The “office” is no more: we live, we work. The demands of the office have changed. We need spaces for quiet, individual contemplation and spaces for group collaboration. Privacy when we want it and public interaction when our work demands it. Most of all, we want spaces that reflect who we are. We want our surroundings to match our ambitions, our environments to align with our sensibilities and our desires.

Arper’s collections work seamlessly in creating spaces that are flexible, modular, and able to accommodate everyone’s needs intuitively. Spaces that are functional and support a holistic lifestyle – work, play and everything in between.
