OUR COMPANY

We are a global design brand that envisions products for the ways we live.

Founded in 1989 in Monastier di Treviso, Italy, Arper has grown into an international voice in design. We are family owned and independently run, guided by strong values and deep sensitivity to those who use our products everyday.

Life is a constant conversation with the environment around us. As the boundaries of our world melt away, work and home become one, and we are compelled to act with agency, we are all presented with the same question: how do we want to live? This project of living inspires our work and our vision.

THE PROJECT OF LIVING

For us, the project of living is a dialogue that embraces change, whether it applies to the world as a whole or to people as they evolve, at all stages of their lives.

Underlying everything we do is a sensitivity towards the communities, relationships, environments, and individuals for whom we design. We believe that spaces shape ideas. We aspire to a beautiful world. We create furnishings that support harmonious, comfortable living in its many forms, that inspire and grow with us over time. We create spaces and solutions to move forward with intelligence and ease. Together, with our clients and partners, we design the world we want to live in, with openness and humanity.

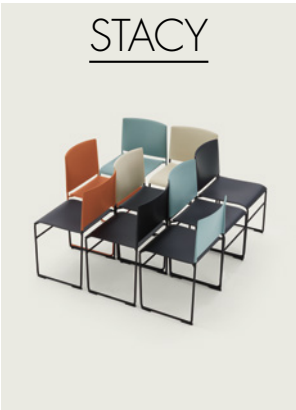

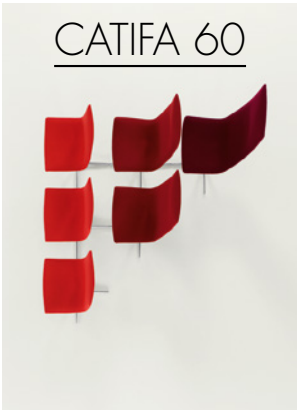

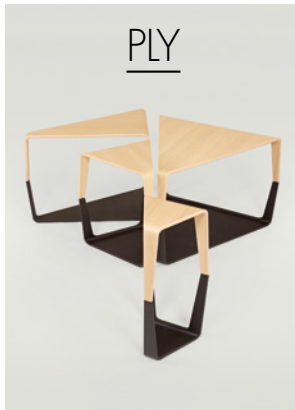

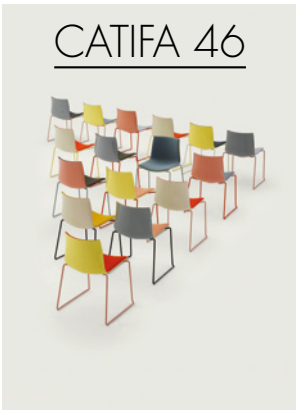

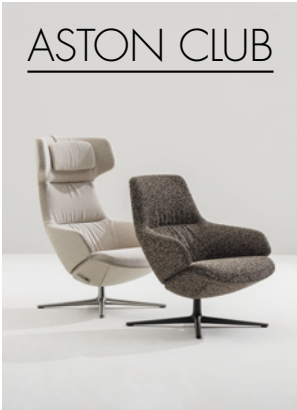

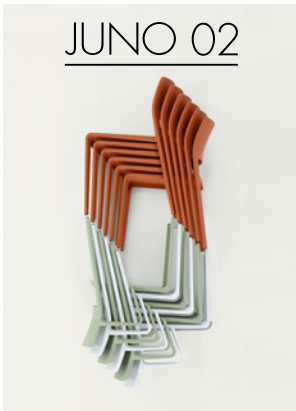

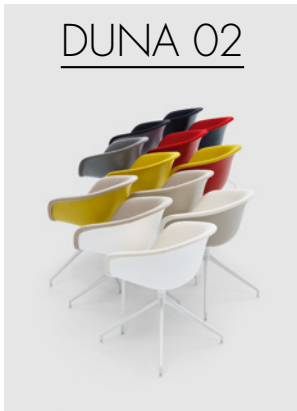

Arper for Hospitality

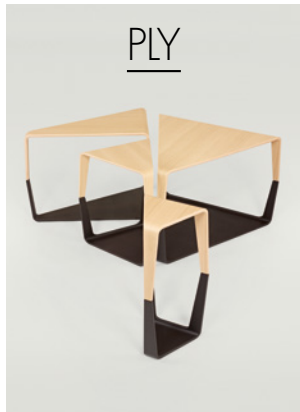

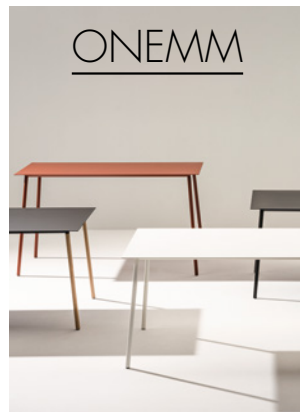

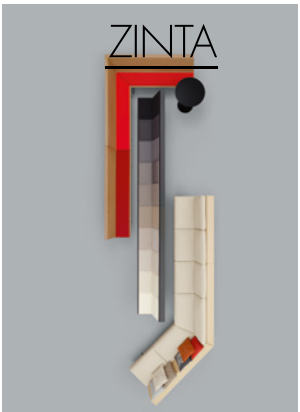

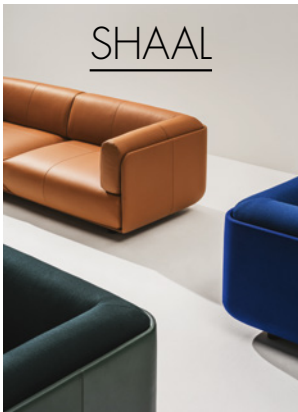

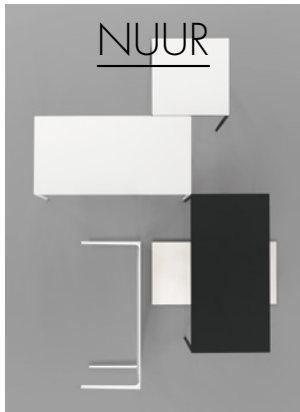

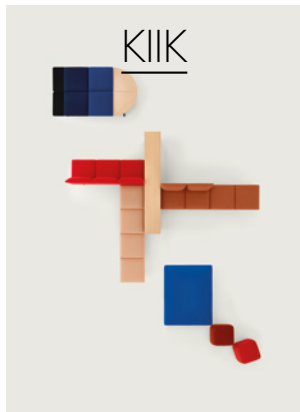

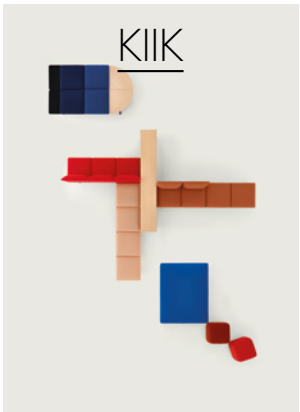

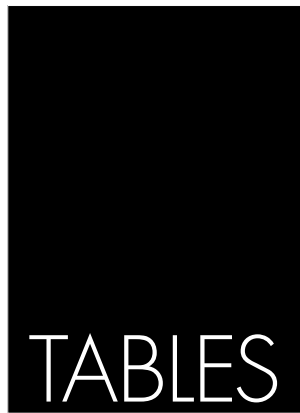

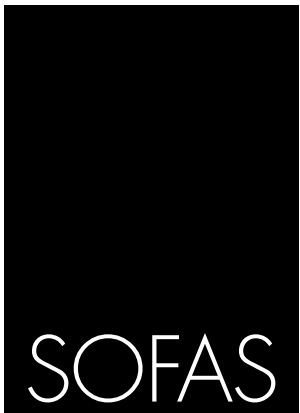

Hospitality has been re-inventing and adapting to match the ever-changing needs of people, who are constantly looking for a home away from home, wherever they are. In the last few years, our relationship with spaces has evolved, and the desire to include warmer elements in everyday living has increased. We have adapted to remote living and working, embracing technology like never before. As a result, when designing hospitality spaces, it has become imperative to focus on welcoming, inviting spaces that can support us in the most diverse tasks. Arper’s versatile, elegant, and customizable solutions can help balance style and atmosphere while also maximizing the space’s functionality.

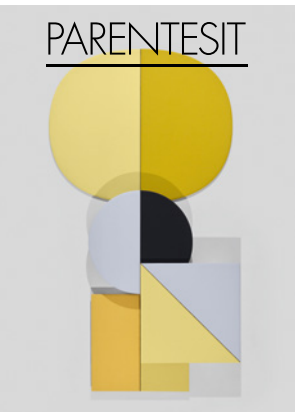

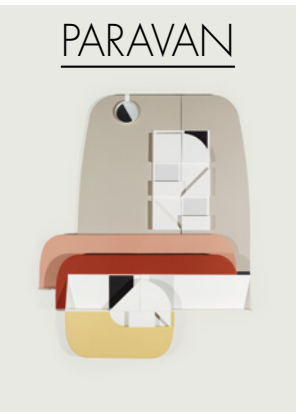

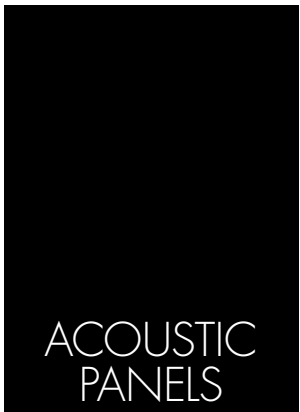

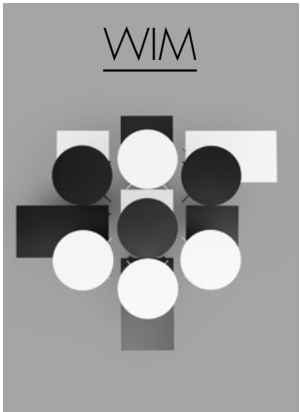

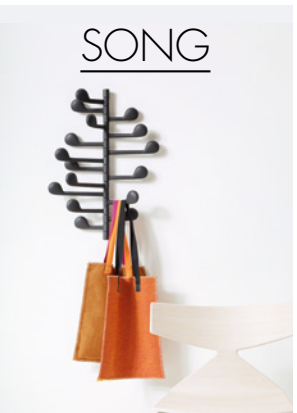

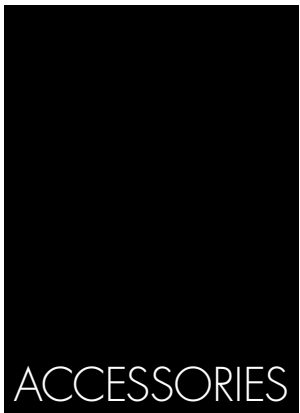

Collections

Our collections are designed to work well in a variety of segments. In the following slides, we have included a selection of products that we think would fit your hospitality project. We are proud to support customers and their partners in creating actionable solutions.
