OUR COMPANY

We are a global design brand that envisions products for the ways we live.

Founded in 1989 in Monastier di Treviso, Italy, Arper has grown into an international voice in design. We are family owned and independently run, guided by strong values and deep sensitivity to those who use our products everyday.

Life is a constant conversation with the environment around us. As the boundaries of our world melt away, work and home become one, and we are compelled to act with agency, we are all presented with the same question: how do we want to live? This project of living inspires our work and our vision.

THE PROJECT OF LIVING

For us, the project of living is a dialogue that embraces change, whether it applies to the world as a whole or to people as they evolve, at all stages of their lives.

Underlying everything we do is a sensitivity towards the communities, relationships, environments, and individuals for whom we design. We believe that spaces shape ideas. We aspire to a beautiful world. We create furnishings that support harmonious, comfortable living in its many forms, that inspire and grow with us over time. We create spaces and solutions to move forward with intelligence and ease. Together, with our clients and partners, we design the world we want to live in, with openness and humanity.

Arper for Healthcare

Hospitals and spaces of healing must attend to the vital needs of three very different populations.

Patients receiving treatment seek out dignity, ease, and humanity in the face of their vulnerability.

Visitors need spaces for communion, celebration, grief, quiet, and community. And medical practitioners require spaces that allow for agility, dexterity, respite, and the highest standards of technological advancement.

As the lines between technology, lightness, and comfort become increasingly compounded, these complex spaces can benefit from Arper's flexible solutions and softer approach —one that always prioritizes people's needs, in the face of any adversity.

Collections

Our collections are designed to work well in a variety of segments. In the following slides, we have included a selection of products that we think would fit your healthcare project. We are proud to support customers and their partners in creating actionable solutions.

CHAIRS

ON THE HEALTHCARE SEGMENT

LOUNGE & WAITING AREA
